

Welcome to Geometry

Dear parents and students,

Welcome back to school! I hope everyone has had a good rest and is ready to move forward. I am excited to be teaching your student geometry. Why is learning geometry important? Geometry allows you to describe real-world objects such as kites, planets, boxes, etc. A kite can model lines, angles, and planes in 2 and 3 dimensions. You will explore the angles formed by the structure of a kite in lesson 1-2

rules for the classroom

1. positive attitudes
2. bring supplies
3. stay on task
4. complete assignments on time
5. take pride in your work-do not turn in assignments with scribbling or problems scratched out. Erase mistakes! The neatness of your work is important.
6. arrive to class on time and be seated and ready to work by the time bell rings
7. dress code will be enforced.

classroom management

1. Students must have a notebook.
2. HOMEWORK is assigned almost EVERY DAY. **Late work will lose points.**
3. A syllabus of each chapter will be given. it will list the majority of assignments, quizzes, and tests. You can use this to know what your student needs to accomplish or study for the next day.

supply list-for home and school

pencils or erasable pens only

highlighter

loose-leaf notebook paper-college rule preferred
