

# November Book Report

## "How-To" Book

You are to read a book which gives instructions on how to do something. It may be a cookbook, a book of games, an arts and crafts book, or any other approved book which explains how to do something.

This report requires two things: a presentation explaining how to do the product and a set of 3 posters. The posters can be half-size posters. The posters need to have the following things:

- I. a title poster (should be bold, bright, "catchy")
- II. a list of materials (or ingredients if cooking)
- III. the steps involved in making it

If you do a cooking project, you need to prepare enough for the class. If you do an arts and crafts project, you may have the project already made and bring it, or you make it while we watch. (Be sure you've already made one and it works!). If you want the class to make the project with you, be sure to tell me ahead of time so we have the supplies ready.
